Green Air Grants

Air Quality

MN

MPCA

Non-Federal

EPA grants are available for used compressors and catalytic reactors and the purchase of new clean air equipment. The purpose of this grant is to decommission and dismantle air pollution equipment that is no longer needed and to avoid the emission of air pollutants from such equipment.

Governmental agencies, educational institutions, nonprofits, local, municipal or regional government agencies, Indian tribes, and other interested entities.

Approximately $200,000 in funding is available for this round. Non-federal entities are required to match the grant amount with a total project cost cap of $575,000. No match required.

December 3, 2018

Conservation Corps Minnesota Clean Water Fund

Great Lakes

MN

Bristol Site

Non-Federal

Funds are available for educational ministries and organizations to replace livestock fencing, clean energy equipment, and energy efficiency improvements. Projects should demonstrate measurable outcomes that contribute to water quality objectives through the improvement of devices that help in retaining water on the land through practices that are more sustainable. Clean Water Act grants are awarded:

Governmental agencies, educational institutions, nonprofits, local, municipal or regional government agencies, Indian tribes, and other interested entities.

Funds are not available - contact the new record grantee for information.
